## COLLECTION

### A PRESIDENTS

In most cases the President's files are separated into two sections. The first section would include correspondence between the President, senior executive members (e.g. the Vice-President and the Vice-President for International Relations) and Miss R. Traub, the General Secretary of NUSAS for over 29 years. Other matters would relate to the President's department for that year only. Correspondence with ex-Presidents or ex-senior executive members is often included in this section. The second section would include correspondence with organisations and individuals.
