The average rate of fees paid is approximately 18/- a quarter for each child, but when two or more children of one

family attend the same school, the fees for each child are reduced proportionately.

Money from fees, subject to the approval of the Government, is used for various purposes, such as the purchase of books and equipment, repairs to buildings and in one or two instances to assist with salary payments.

Instances of inability to pay fees are investigated by the committees and in a number of cases they are either reduced or totally remitted.
