## " MARRIAGE MEASURE 1930."

This Measure allows the publishing of banns and the solemnising of marriages in a church which, though not the parish church of either party, is yet the usual place of worship of one of them. The minister is entitled to require written notice with full particulars at least seven days before the first reading of banns.

Such publication of banns is in addition to the publication in the parish or parishes of residence already required by law, and before a marriage is solemnised the minister must have certificates of publication from the ministers of every place of worship in which they have been published.

The "usual place of worship," for the purposes of the Measure means the church on the electoral roll of which a person is enrolled.

For further information the Measure itself, which can be obtained from S.P.C.K., price one penny, should be consulted.
