# ANNUAL REPORT OF THE BOARD

1934

---

In the forefront of the report of the Board should be set the expression of our sense of loss in the death during the year under report of our Honorary Treasurer, Mr. Howard Pim. His service to the cause of the Native people in general and to this Institution in particular is too well known to require any extended reference. It is enough at this time to note that we have lost a great man, a great friend and a great worker for the cause we represent. It is very gratifying that his son, Mr. J. Montague Pim, has accepted at the unanimous request of the Board the Honorary Treasurership in place of his late father.

The year 1934 has been definitely a year of expansion in the work of the Hospital. The admissions of in-patients exceed the number for 1933 by 108. The total number of out-patients seen exceeds the total for 1933 by 1,241. Although there is no startling increase in the daily average of in-patients, from 23.7 in 1933 to 26.6 in 1934, there is a steady growth toward the full capacity of the Hospital and the Board foresees probable need for expansion within a few years.

A new feature of the Hospital service, begun during 1934, has been a post-natal clinic for mothers and babies who have been in-patients of the Hospital. To meet the increased demand on the Doctor of the growing out-patient department, the post of staff-nurse has been reintroduced and Nurse Mavis Mabope has been appointed to the post. This department has also had the voluntary service of Miss E. Cody and Mrs. E. Green of the Good Companions and the Board extends to them and to their Association its hearty thanks.

To provide for more effective working it has been found necessary during the year under report to erect a house for the Medical Superintendent on the Hospital grounds. The limited accommodation for the European staff in the Hospital itself has been much relieved thereby. The European staff quarters upstairs were renovated at the same time. It has been found necessary to enlarge the laundry by taking over the quarters of the domestic staff and the caretaker which were under the same roof and a new building is to be erected to accommodate these members of the Native staff. The alterations will include the provision of a much-needed drying room for the laundry and the laying on of hot water for which it has heretofore been necessary to depend on a copper boiler.

These improvements and the additional maintenance costs involved have been made possible by definite improvement in the financial position. By an intensive effort on the part of Mrs. Bridgman, assisted by Miss Niven, the annual subscriptions were increased by £425 over 1933. A grant from the Native Development Fund for the training of Native midwives was increased from £200 to £355. The fees collected from patients also show an increase of nearly £250. The latter item especially is one that should be noted with gratification. The total amount actually collected in fees during 1934 is roughly £1,600 out of a total income of £6,643.

Another very cheering feature of the financial year has been the receipt from the estate of the late Mr. Barnet Lewis of a legacy of £2,220 which, after payment of legacy duty, amounted to £2,000 5s. This legacy for which the Board is profoundly grateful has been invested to restore in part the original Endowment Fund of the Hospital raised in America which had to be borrowed to help meet the original costs of the erection of the Hospital.

Another legacy of £200 was received from the estate of the late Blanche McDonald. The Board records its gratitude for this bequest also, and commends the Hospital to the attention of other friends who may be making their wills.

Stil another important gift was £300 accruing through the thoughtfulness of the family of the late Mr. Howard Pim, who asked that friends instead of sending flowers for the funeral should send a donation to the Hospital. This fund has been set aside to be devoted to some future need of the Hospital in such a way as to form a suitable memorial to Mr. Pim.

The University which uses the facilities afforded by the Hospital for the midwifery training of certain of its students has this year made a grant of £25 in recognition of this privilege.

The financial position of the Hospital, as will be seen from the report of the Honorary Treasurer, is sound. There has been a balance of revenue over expenditure of £591, but the improvements and alterations already done and in hand will nevertheless make it impossible to further reduce our debt at present. Moreover, what appeared a year ago to be more or less a Utopian ideal, namely, the erection of an isolation block begins to loom on the horizon as a probable necessity within the next few years. The Board wishes to extend its most hearty thanks to all those who have assisted in making the financial position so satisfactory, and especially to its annual subscribers, both old and new.

Doctor Hope Trant, who has efficiently carried on the Superintendency for the past two years, has resigned to take up practice in Swaziland. The Board takes this opportunity to thank her for her services and to wish her all success in her new work. Dr. Trant's resignation takes effect from 30th June, and applications are being considered for the post.

In December Matron Matheson was granted two months' sick leave in addition to her regular leave. Sister Bell is ably acting as Matron during her absence.

The success of the Hospital as a training school for Native midwives has been again maintained, twelve probationers having obtained the certificate of the South African Medical Council out of thirteen who took the examination.

At the request of the Department of Education, the Hospital has been registered as a Hostel under the provisions of Act 46 of 1920, and non-European delinquents from Government Hostels who require maternity service will be committed to the Hospital for the period of their confinement, the Department paying the usual fee.

The Hospital has been again honoured during the year by a visit from its Patroness the Countess of Clarendon.

The Christmas festivities were brightened by the presence of the Kunwarani Lady Maharaj Singh, wife of the Agent-General of India, with her little daughter. The happy and gracious way in which she distributed the gifts added much to the spirit of the occasion.

The customary visit during the Christmas season by the Mayor and Mayoress, Councillor and Mrs. Maurice Freeman, was also much appreciated.

During the conference of the New Education Fellowship in July, a large number of delegates visited the Hospital and were much interested in its work.

Amongst other distinguished visitors have been Dr. Moffat, of Capetown, Dr. Hamilton Dyke, of the Protectorate Medical Service, and Dr. Fraser, wife of the late Dr. Donald Fraser, of Nyasaland.

The religious services on Sunday evenings have been conducted by ministers of the various missions, both European and African, and for their kindly help the Board is grateful.

The thanks of the Board are again extended to our Honorary Consultants, Prof. W. Gordon Grant and Dr. James Black, whose professional services have been supplemented by their invaluable counsel on

matters of policy and administration, and to Dr R. L. Girdwood, Hon. Consulting Physician. Our thanks are tendered also to Dr. G. Spence Smyth, Asst. Hon. Consulting Obstetrician, who has acted for Dr. Black during the latter's leave and has assisted at other times; also to our Hon. Consulting Anaesthetists, Dr. S. Borman and Dr. D. Crawford.

The Board also places on record its thanks to our Treasurers, not only for their efficient administration of the Hospital's finances, but for their donation again of the cost of those services. Once more also we record our thanks to the Hon. Auditors, Messrs. Aiken and Carter, whose very considerable contribution is manifest to most of us only by their signature on our balance sheet, but which we realise represents a substantial gift of service.

Other friends who deserve our thanks are Dr. Janet Booker for much gratuitous service in the out-patient department and in giving of anaesthetics; Mr. J. J. de Bruyn, of the South African Institute for Medical Research, for giving blood transfusions on several occasions; and Dr. Clara Mendelsohn, who also has assisted in the giving of anaesthetics when our Honorary Anaesthetists were not available.

And finally, we would inscribe over the work of the year and over all the devoted service of the staff and over all the gifts of service and of money

### To the Glory of God.

JAMES DEXTER TAYLOR,  
Hon. Secretary.

# ANNUAL REPORT OF THE MEDICAL SUPERINTENDENT

For the Year ended 31st December, 1934.

---

The past year has shown a steady growth in the work of the Hospital, there having been an increase of 108 in the number of in-patients over the previous year, of these 89 were adults and 19 children.

The out-patients' department also shows an increase of 1,241 over the year 1933, and it has been necessary to engage a permanent Native staff-nurse to assist in the work. Dr. Janet Booker very kindly undertook to help in this department in an honorary capacity during the later half of the year.

Thirteen pupil midwives sat for the South African Medical Council Examinations in Midwifery during the year and twelve succeeded in passing; though one of these failed at her first attempt.

## DETAILS OF CASES.

### EXTERN MATERNITY:

The arrangement made with the Department of Public Health of the City Council, whereby our nurses take out their district cases during the year at the locations of Orlando and Nancefield continues to be satisfactory. It was found that the nurses could obtain a sufficient number of cases by attending at Nancefield Location only, so that we arranged with the Municipality to give up sending nurses to Orlando in April. During 1934, twelve pupil midwives took their district cases in this manner.

### INTERN MATERNITY:

Total Admissions, including births	1,538
Total Deliveries in Hospital	541
Abortions (up to 3½ months)	54
Miscarriages (3½ to 7 months)	74
Confined before Admission	56
Hydatidiform Mole	3
Normal Confinements in Hospital	397
Abnormal Confinements in Hospital	144

Amongst these abnormal cases were: 21 breech presentations, 7 transverse presentations, 4 face presentations, 3 compound presentations, 8 cord presentations, 2 brow presentations, 3 persistent occipito-posterior presentations (face to pubes), 23 twins, 27 cases of disproportion, 1 ruptured uterus, 5 placenta praeviae, 9 eclamptics, 11 cases of accidental haemorrhage, 20 cases of post partum haemorrhage, 3 ectopic pregnancies, and 2 cases of hyperemesis gravidarum.

There were 75 major and 116 minor obstetrical operations, amongst these being 20 forceps deliveries, 11 caesarean sections, 7 craniotomies, 3 decapitations, 34 manual removal of retained placentae, 10 internal versions, 1 hysterectomy for ruptured uterus, 3 surgical inductions, 4 blood transfusions and 87 repairs to lacerated perinei.
