the moment you smooth on

POND'S VANISHING CREAM

Beautiful women all over the world have found that their skin looks lighter, clearer, lovelier than ever before, when they use Pond's creams.

POND'S VANISHING CREAM with the big V on the jar, is wonderful for cleansing your skin. It is the little bits of dead skin which make your complexion look dirty, darker, and Pond's Vanishing Cream removes all this, and clears up the blemishes and pimples caused by dead skin. When you use Pond's Vanishing Cream you will find you have a beautiful new complexion—silky-smooth, lovely to look at, lovely to touch.

The delicate matt (non-shiny) finish of Pond's Vanishing Cream takes powder softly, evenly, and holds it for hours! This is because Pond's Vanishing Cream is completely greaseless—won't turn shiny even on the hottest days.

There's nothing like this delicate protective cream to make your skin look so smooth, so light, so fine-textured. And hours after you've put it on—your powder is still attractively smooth and fresh.

To add the finishing touches to your Pond's beauty treatment, use Pond's Face Powder, which comes in six soft, flattering shades.

Maud Malaka
★
Famous African Short Story Writer, Poet and Beauty Specialist says...

"USE TWO KARROO CREAMS"

Hundreds of thousands of Africans read Maud Malaka's stories, which are deservedly famous. She has a beautiful, tight, smooth complexion, as you can see from this picture. Read what Maud says:

"All African women like to look their best, whether they are at home or at work, going into town for the day or going out for the evening. It is important to have a good complexion. You know how people always look at faces, passing in the street or when meeting them!"

"African women have a style of beauty all their own. A light, smooth complexion is much admired. I always recommend KARROO FRECKLE CREAM for use at night. You just rub it into the face, neck and shoulders. In the morning you wash it off in the ordinary way."

"Anybody who wants to have a lighter complexion should use KARROO FRECKLE CREAM. There are three

kind, African women usually prefer "Strong", if you have a light skin, or one that is delicate, you should try "Medium".

"A beauty treatment that is very successful is to start off with "strong", and then when your skin is lighter, use "medium".

"Then you will want a cream to use in the daytime, and there is nothing like KARROO MATT CREAM. This is a special non-shiny cream. Your face will not look at all shiny if you use KARROO MATT CREAM. It lasts very well, too. You can use powder if you wish. But be sure you get KARROO CREAMS."

Take Maud's advice: Buy BOTH Karroo Creams and give yourself a real beauty treatment.
