Dear Sir,

I enclose a copy of a letter received from the Registrar of the University of South Africa. It will facilitate matters if you will write direct to him, enclosing a copy of the letter to which he refers.

If you find it impossible to go to Pietermaritzburg for the examination, it might be worth your while requesting the Registrar to establish a further examination centre in Johannesburg. Should you do so, it would be wise to point out what your difficulties are concerning a visit to Pietermaritzburg.

Yours faithfully,

Dear Sir,

re: INQUIRY: TYPING CLASSES.

I am in receipt of your letter of the 16th June, 1951, and, in reply to it have pleasure in furnishing the following addresses:

1. Sunrise College, Room 202 Chancellor House,
25 Fox Street, Johannesburg.
2. African Bakers Union, 210 Chancellor House,
25 Fox Street, Johannesburg.

The first school charges an inclusive fee of £15 per courses of training in typing and bookkeeping, and, I believe it can be arranged to have your fees paid by instalments.

The second school gives tuition in typing only, but we have no information about their fees.

Dear Stanley,

re: DOMESTIC SCIENCE TRAINING FOR
AFRICAN WOMEN TEACHERS.

I heard recently that the training course for domestic science teachers started some years ago at Healdtown has been discontinued.

As this course was established to supply a definite need throughout the country, and there is no other school of its kind, I was surprised. I am, therefore, anxious to know what the position is and shall be very grateful if you will tell me what has happened.

In the meantime, all good wishes to you and your wife and to Mr. Molcitini and Harriet Noble.

Dear Sir/Madam,

During the long vacation, which lasts from the beginning of December to the end of February, the great majority of University students wish to take up employment and to many of them, the money which they earn in such employment is absolutely necessary for them to be able to continue with their courses. NUSAS is endeavouring to assist these students by finding employment for them.

If, therefore, you are in need of additional employees during these months, or if you are willing and able to assist needy students by giving them employment, I shall be extremely grateful if you will notify me at your earliest convenience of any employment which you may have available for students. Could you also let me have the following information:

- 1) Nature of employment offered.
- 2) Period during which employment is available.
- 3) Payment offered.
- 4) People required:
 - a) Number
 - b) European/Coloured/Indian/African
 - c) Sex

We shall very much appreciate any assistance which you may give us in this matter, and would be pleased to hear from you soon.

Thank you.

Yours faithfully,

My dear Quintin,

DOMESTIC SCIENCE TRAINING

I must apologise for not answering before this your letter of the 14th September, but I have been down with a dose of 'flu, and am just catching up on accumulated stuff.

So far as I can gather the position in respect of the post matriculation domestic science course is that the Department decided to modify rather than discontinue the domestic science training, and that on the reports of the inspectors in the subject.

The Course as it has been conducted began to be discontinued last year, when no 1st year students were recruited for the three year Course. In its place, however, students were recruited for the first year of a more general course, known as Advanced Primary, which will be followed after two years, for those girls who wish, by a one year specialist course in Domestic Science.

I understand that it was felt that there was limited scope for those whose sole qualification was an advanced course in Domestic Science, whereas a more general training first, and then a briefer specialist course, would open to them a very much wider field.

That, at anyrate, is the position at the moment. We are working off the last two years of the Post Matriculation Domestic Science Course, and its place is being taken by a two year Advanced Primary Course, followed, for girls, by a one year Specialist Course in Domestic Science.

I hope this will serve to throw some light on the position,

Thank you for your greetings to us and members of staff - these are heartily reciprocated.

Yours very sincerely,

PRINCIPAL.

Dear Sir,

re: Vacation employment for University Students.

Your circular letter dated 29th September and addressed to the Director has been referred to me for attention. In reply to it I have to inform you that the Institute has no vacancy in its staff at present and is therefore not in a position to take on any of your students.

It will interest you to know that we have already been approached in this connection by the Fort Hare students' Council and have, in consequence, approached a few large firms with a view to getting them to employ students during the rush periods of Christmas and New Year. Our attempts which included the South African Railways have not been successful. Everywhere - excluding the Railway - we meet the same objection that it does not pay to train new hands if they are only going to be temporary.

The Railway authorities state that they take only Coloureds in their bedding and catering departments.

Mrs. C. E. Moore,

PARKTOWN NORTH,
JOHANNESBURG.

Dear Madam,

Thank you for your letter of October 28th which you wrote when you were on a brief visit to Naboomspruit. The reason for the delay in our replying to it is that we have tried to ascertain whether there is indeed a new regulation which makes it imperative for an African who has started work as a domestic servant to remain in domestic service for seven years. We find that there is no such regulation and apparently the persons who informed you about the existence of such a regulation confused the issue with one of the conditions under which an African may obtain an exemption from the Pass Laws. This regulation reads:-

"The applicant (for exemption) must be at least 25 years of age and must be able to establish a record of faithful and continuous service with not more than two employers over a period of not less than seven years immediately preceding the date of his application."

For your information, there are also various other circumstances under which an African may be exempted from the pass laws, e.g. a matriculant who is 21 years or older, or an African who possesses the Junior Certificate and is at least 25 years of age and who, at the same time, satisfies certain other conditions, may apply for an exemption certificate.

While Africans who wish to be exempted from the Pass Laws may, therefore, regard the regulation about the seven years' continuous service with not more than two employers as something which forces them to stay in the same employment for a certain period, they are in fact not legally obliged to do so.

/As regards.....

As regards the lack of entertainment facilities for the Africans employed at the Zebediela Citrus Estate, I regret that there is very little the Institute can do apart from continuing to press for a fairer treatment of Non-European employees throughout our country. Could you not perhaps persuade some of your friends in that area to approach the Citrus Estate in this matter? A good suggestion may also be that evening adult education classes be started for the African employees. I am sure that our Adult Education Officer, Mrs. M. Whyte, would consider helping with this if we were to be approached by the Estate.

We do wish to thank you for your warm interest in the welfare of the Non-Europeans.

Yours sincerely,

F. J. van Wyk,

UNIVERSITY OF NATAL

DURBAN

COURSES FOR NON-EUROPEAN STUDENTS LEADING TO THE DEGREES OF B.A., B.COM., B.SOC. SC., B.SOC. SC. (SOCIAL WELFARE), AND M.B., CH.B. 1951

Classes in the Non-European Section of the University are held to enable students to proceed to the degrees named above

The classes for B.A., B.Com. and B.Soc. Sc. are held, by kind permission of the Natal Education Department, in Sastri College and are for the most part during weekends, to enable students to attend who live some distance from Durban. Science courses for Pre-Medical students will be held at Wentworth.

ENTRANCE TO THE UNIVERSITY

In terms of Private Act No. 4, 1948, the Council reserves the right of admission to the University.

The normal qualification for admission to a degree course is the Matriculation certificate, or the Joint Matriculation Board's certificate of exemption from the matriculation. Students who are not so qualified, or who do not desire to take a regular course, may be admitted to individual classes, provided the professor or lecturer concerned is satisfied that they are competent to profit by the instruction given. Those who intend writing the supplementary matriculation examinations in March and wish to join the University are advised to present themselves for provisional registration on the dates given below, or to apply to the Organiser, Non-European Section, Box 1525, Durban before 31st January.

School Leaving Certificates.—Students who have only obtained school-leaving certificates may, in certain cases, obtain conditional exemption from the matriculation; persons over the age of 25 years who have passed some examinations up to matriculation standard may also under certain conditions be granted conditional exemptions, and should apply as soon as possible to the Organiser, giving details of the certificates held. No applications for exemption

received after 30th April will be considered, and such applications must be accompanied by all the necessary supporting documents and fee of £3.

Every student, on joining the University, shall sign the official registration form and such signature shall be regarded as an acceptance of the rules of the University.

“Duly Performed Certificates.”—Before a student is allowed to enter for a degree examination in any subject, he is required to have a certificate from the Head of the Department to the effect that he has duly performed the work required. D.P. certificates **will be refused** in the case of a student who has not attended lectures regularly **and performed the work of the class**, including the mid-year class examination, to the satisfaction of the Head of the Department, and such student will therefore not be admitted to the degree examination in such subject.

In the case of unavoidable absence from class, the student shall, as soon as possible, give reasons for absence to the professor or lecturer whose lectures or practical classes have been missed.

Any student whose home is outside the Union must take the necessary steps to obtain a permit to enter the Union and to remain there for the purposes of study.

CURRICULUM

The curriculum of every student **must** be approved by the Dean of the Faculty in which the student registers, and no approved curriculum may be altered without the written consent of the Dean or his representative. Representatives of the different faculties will be in attendance at the times shown on page 2 to advise students. Students who cannot attend on those days should make special arrangements with the Organiser for registration.

The courses of study of each student are arranged in consultation with the organising officers, and, except under very special circumstances part-time students must devote not less than four years to their course of study. Students should realise that a University degree can only be attained through genuine hard work. For each hour of lectures, students should expect to do at least two hours of private study and reading or practical work. A University course cannot be taken successfully if the student's time is already fully occupied by other activities.

COURSES PROVIDED

In 1951, provided there is a reasonable demand, it is anticipated that the following courses will be available:—

Faculty of Arts	Faculty of Commerce	Faculty of Social Science
Afrikaans-Nederlands I, II & III	Accounting I & II	Economics I, II & III
Criminal Law	Auditing I	Economic History I
Economics I, II & III	Commerce I & II	Native Administration I & II
Economic History I	Economics I, II & III	Psychology I & II
Education	Economic History I	Social Work I, II & III (including Practical Work)
English I, II & III	Economic Geography	Social Anthropology I & II and such other B.A. courses as are included in the B.Soc. Sc. Curriculum.
Geography I, II & III	Elementary Finance (half course)	
History I, II & III	Industrial Organisation & Management I	
Introduction to Philosophy	Mercantile Law I	
Latin Ib	Statistics (half course)	
Native Administration I & II	and such B.A. courses as are included in the B.Com. Curriculum	
Political Science I & II		
Psychology I & II		
Roman Law I		
Roman Dutch Law		
Social Anthropology I & II		
Sociology I, II & III		
Special French		
Zulu I, II & Special Zulu		
10 Courses required.	15 Courses required.	11 Courses for B.Soc. Sc.
		15 Courses for B.Soc. Sc. (Soc. Welfare).

B.Sc. Course.—It is not possible to provide a full B.Sc. course for Non-European students, but the matter is under consideration.

If there is room in the laboratories at Wentworth, however, B.A. students may take **one** course in Science, i.e., Botany, Zoology, Physics or Chemistry, but these courses will only be open to **full-time** students, and each course will be spread over two years, the examination being taken at the end of the second year.

Medical Course.—Intending medical students should refer to page 11.

Classes taken **exclusively** by B.Com. students will normally be held during the week, and not on Saturdays and Sundays, but these students may have also to attend classes in common with B.A. students which are held at the weekend.

Students in the Social Science Faculty may take either of two degrees, i.e.:—

B.SOC. SC. (SOCIAL WELFARE) OR B.SOC. SC.

The former requires four years full-time study and qualifies students for the profession of a Practical Social Worker. Part-time

students will not be enrolled for this degree unless they can undertake to give four consecutive weeks in each year and one afternoon a fortnight to training in Practical Social Work.

The other B.Soc. Sc. degree requires three years full-time study. It does not include Practical Work and does not qualify graduates for positions as professional social workers. It is intended for persons (such as civil servants, ministers, teachers, etc.) who desire a knowledge of social problems but who are not concerned with the practical administration of relief.

Honours Degree Courses.—Courses leading to an honours degree may be arranged if a sufficient number of students present themselves.

Intending students should notify the Organiser as early as possible which subjects they wish to take during 1951 to enable her to make the necessary arrangements. They should either communicate with her in writing or see her before the first week in February. **Students should note that time-table difficulties may make certain combinations of subjects impossible**, but every effort will be made to meet the requirements of students who register not later than 5th February.

For registration dates and times, please see page 2.

The time-table will be drawn up on the basis of registrations received on or before 5th February. Students registering later than that date must adapt their curricula to the time-table. All students registering after 5th February will be liable for £1 late fee, and £2 late fee if they register after 15th March.

VACATION SCHOOL

To supplement the ordinary class work by a short period of study under residential conditions, a Vacation School will probably be held in July for about 12 days. Both classroom instruction and special tuition are provided. Books from the library are available, and students are required to do a specified amount of reading. There are also opportunities for social activities and holiday recreation. Visits from distinguished persons, who give special addresses to the students, may be arranged. Attendance at the Vacation School is not compulsory, but in the past nearly all the students have attended, and found that the School not only provides an agreeable holiday, but also an opportunity for concentrated and supervised study which is only possible when students and lecturers are in residence together. It must be understood by students attending this Vacation School that they must obey the rules drawn up for the Vacation School.

LIBRARY

A Library for Non-European students is provided, situated in the buildings at the rear of Sastri College, and books can be consulted and borrowed. Students must be prepared to purchase some books for use in each class.

FEES

The normal fees charged are given below. As these represent a considerable advance on those heretofore charged in the Non-European Section, the Council of the University has decided that in future Fee-Remission Bursaries up to a maximum of 40 per cent. of the fees may be granted to students who **make application** for this concession on a special form, which must be certified by an affidavit. This remission is in **addition** to the various scholarships and also to the loans, and applications for the remission, fully completed, must be lodged with the office by 15th February for consideration by the proper committee.

It is the intention of the University that no Union students should be prevented from attending courses for degrees, simply because they cannot afford the normal fees.

The fees given below are inclusive (i.e., no additional fees are charged for Library Services, S.R.C., Athletic Union, examinations, graduation), but Vacation School fees and Hostel fees are **extra**.

B.A., B.Com., and B.Soc. Sc.

Full-Time:	Normal Fees.	Fees when maximum 40% Fee Remission is allowed.

---------------------------------------	-------------	--

Exemption Fees for subjects taken in another University:
£2 per course.

Late registration fee: After 5th February and up to 15th March,
£1; after 15th March, £2.

Residence fees: £40 per annum (Vacations not included).

Fees are Payable Half-yearly in Advance.—Arrangements can, however, be made for students to pay by monthly instalments which extend over eight months. It must be understood that these instalments are arranged as a concession to the Non-European students,

at considerable inconvenience to the University, simply to meet the needs of students with small salaries and **do not mean that tuition is paid for by the month.** Once enrolment has taken place the student is under an obligation to pay the term's fees in full.

Arrear Fees.—Students in arrears with fees for the first term will not be allowed to attend for the second term. Students whose fees are in arrear may not be allowed to enter for examinations. Students whose fees are in arrear on 1st November may be debarred from writing the examinations. In addition, the University reserves the right to withhold examination results, degrees and diplomas from students who do not meet their accounts before the end of the year.

LOANS

Loans may be made by the University to a limited number of students who can show that they are in real need and cannot attend these courses of study without financial assistance. Such loans will not exceed 50 per cent. of the fees, and will only be granted to matriculated students or those who have made application for exemption for matriculation.

Students requiring loans should obtain a special form of application which must be completed and returned to the Organiser **not later than 15th February.** No late applications will be considered.

STUDENTS' REPRESENTATIVE COUNCIL

There is a Non-European Students' Representative Council whose objects are as follows:—

1. To represent the students in matters affecting their interests.
2. To afford a recognised means of communication between such students and the University authorities in matters affecting students' interests or the general order and good government of the body of students of the University which it represents.
3. To promote the social life of that body of students of the University which it represents and to advise the University Senate what associations or clubs established by the said students are recognised by each Students' Representative Council within the area of its jurisdiction as University clubs or societies and are entitled to the privileges attached thereto.
4. To hold and to keep an account of all moneys paid over to each Representative Council by the University Council and any other moneys of which each Students' Council may become possessed in its capacity as representing the students of the University and to allocate or disburse such funds in accordance with rules approved by the University authorities.

For conditions of membership of the Student's Representative Council see page 53 of the General Information Booklet.

This Council is elected in September of each year, and its representatives meet from time to time with the other two Student
