The Messenger of the Court,
Magistrate's Court,
PIETERSBURG.

Dear Sir,

Re: JONATHAN THEMA vs. H. W. CHAIN
CASE NO. 1226/48.

I have been informed by Mr. Chain that in April 1949, a property belonging to Mr. Jonathan Thema was sold by your Court and realised £105. Mr. Chain who had instituted proceedings for the recovery of debts due to him by Mr. Thema claimed £62:7:3 of this sum, leaving a balance of approximately £40 due to Mr. Thema.

As the latter has not received the amount due to him from this sale, he has requested us to communicate with you and ask you to send his cheque through the Institute.

I shall be glad if you will favour me with a reply at your earliest convenience.

Yours faithfully,

W. B. Ngakane,
FIELD OFFICER.

Mr. Ngahane

Will you please keep this?

VIR AANDAG: DR. VAN ROOYEN

Geagte heer,

Na aanleiding van ons telefoongesprek vanoggend skryf ek oor die volgende geval aan u:

Ene Petrus Magobe, Huis 62, Leeuwoornstad-lokasie (Posbus 97, Leeuwoornstad) deel ons mee dat hy vir die afgelope tien jaar as n onafhanklike timmerman en algemene skrynerwerk. Hy is getroud, met een kind, en hy help ook met die ondersteuning van sy moeder en ses jonger broer en susters; sy vader is oorlede. Hy verklaar dat hy hoofsaaklik vir boere werk en in dié verband strek sy werksarea oor die gebied Maquassi, Wolmaranstad, Rustenburg en Ottosdal. Hy betaal 2/- per maand vir n algemene dienskontrak.

Onlangs, so beweer hy, het die Naturellekommissaris wat elke Maandag Wolmaranstad besoek, sy werksarea tot Leeuwoornstad beperk. As hy dus werk buite daardie area kry, is hy nie in staat om dit aan te neem nie. Hy verklaar dat die sukses van sy werk heeltemal afhang van die reg om van plek tot plek te beweeg om onmiddellik werk aan te neem wat hom aangebied word. Indien hy elke keer spesiale toestemming moet verkry om buite Leeuwoornstad werk aan te neem, verloor hy die werk, veral aangesien daar nie n voltydse Naturellekommissaris op Leeuwoornstad is nie.

Hy verklaar dat hy n „skoon rekord" het en dat hy tydens die tien jaar wat hy hierdie soort werk verrig het, nog nooit in enige moeilikhede betrokke was nie.

Aangesien /.....

Die Sekretaris van Naturellesake.

17 Junie 1955.

Aangesien ons nie die presiese omstandighede wat die Naturellekommissaris se besluit ten grondslag lê, ken nie, sal ons dit baie hoog op prys stel as u en die betrokke Naturellekommissaris vir Petrus sal help as dit enigsins moontlik is.

Dankie by voorbaat,

die uwe,

F.J. van Wyk,
ASSISTENT-DIREKTEUR.

Attention: Dr. van Rooyen

Dear Dr. van Rooyen,

As mentioned on the telephone this morning
we should be grateful for your help in the following
case.

Mr. Petrus Magobi, House 62, Keuntdoonstad
location (postal address Box 97, Keuntdoonstad) informs us
that for the past ten years he has been working as an
independent handyman carpenter. He is married, with one
child, and also helps to support his mother and six younger
brothers & sisters; his father is dead. He states that he has
mainly worked for farmers & his work ~~and his main~~ ^{has ranged} over an area including Maquassi,
Wolmarandstad, Kichtenburg & Ottodal. He pays 2/- a month
for a general service contract.

Recently the Native Commissioner at Wolmarandstad,
who is in attendance there every Monday, has confined
his area to Keuntdoonstad. Mr. Magobi points out that
should he receive a call for work elsewhere he is unable
to take it up and that the success of his job is
mobility to ~~move~~ take on jobs, ^{as} and where there
is a need for his services. If he has to obtain special
permission on each occasion he has a job ~~there~~ outside
the ^{immediate} Keuntdoonstad area, he has to await the advent of the
Commissioner and so loses the work. He maintains
that he has a clean record and has not been in
any trouble during the ten years he has been an
independent contractor.

we should be most appreciative if you
are able to help him in this difficulty.

Yours sincerely.

KOTADORA

(Registered in England)

For a long time it had been my ambition to prepare an ointment which will be useful to rich and poor alike. This ambition compelled me to go through various books and the result of my efforts, which occupied many years, thanks to ALMIGHTY GOD, is that I am able to put before the public an "OINTMENT called KOTADORA." The important thing about KOTADORA is that it is guaranteed to be absolutely free from any trace of animal fats; there is a magical touch about KOTADORA which dispels disease and grows new healthy skin as nothing else can.

Kotadora is a regular physician for the family which possesses it; try it once in any skin diseases and you will come to know how magically it acts, thus effecting radical cures.

Directions for the use of KOTADORA are given below:—

Cleanliness is Imperative. The hands before touching KOTADORA should be thoroughly washed, also wash all trace of eruption to which KOTADORA it about to be applied. This regard for cleanliness is absolutely imperative.

Wounds. First wash wound thoroughly with hot water, then put a little KOTADORA on wound. Repeat this every morning till it is cured.

Cuts. First wash the cuts thoroughly and then apply KOTADORA.

Boils. When an abscess is completely formed, the matter should be let out either by lancing or by the application of hot poultices when the pain is considerably reduced. Apply heat by means of a damp warm towel. Then clean with water and dress with KOTADORA.

Sores. KOTADORA should be smeared over the sores and rubbed in gently for a few minutes. The treatment will be found delightfully soothing, cooling and pleasant.

Burns. Cut off the clothing, from the injured part of the body and then apply KOTADORA direct to the wound. RINGWORM. First wash with hot water and then rub KOTADORA on it twice a day.

Ulcers. The affected part should be liberally anointed with KOTADORA and carefully bandaged. Repeat this every morning.

KOTADORA

Kwa muda mrefu ilikuwa nia yangu kutengeneza dawa ya mafuta itakayowafaa maskinna matajiri. Nia hiyo ilinifanya nisome vitabu vingina matokeo ya kazi yangu ilipochukuaimiaka mingi, kwa uwezo wa Mungu nimegundua dawa hiyo ya mafuta iitwayo kotadora Jambo kubwa katika dawa hiyo ni kwamba imethibitishwa kuwa haina mafuta ya wanyama hata kidogo; Dawa hii ni ya ajabu, maana yaweza kuponya maradhi ya ngozi na kaita katisha kuliko dawa nyingine yeyote.

Kotadora ni mganga wa nyumbani kwa watu waliyo nayo. Jaribu mara moja kwa ugonjwa wote wa ngozi na utaona manufaa yake.

Maagizo ya matumizi ya kotadora ni hayo yafuatayo:

Kambo kubwa ni usafi. Kabla ya kuishika dawa hiyo mikono lazima ioshwe sana, pia osha takataka zote kwenye kidonda, jeraha au kivimbe kitakachotiliwa dawa. Jambo hilo ni la muhimu sana.

Majeraha: Kwanza safisha jeraha barabara kwa maji moto, pili tia Kotadora kidogo kwenye jeraha. Fanya hivyo kila siku asubuhi mpaka jeraha lipone.

Vijeraha vya kujikata: Kwanza safisha jeraha barabara kisha utie Kotadora.

AJALI IKITOEKA

Tunapofanya mambo mengi, kama kufanya kazi au kupumzika, au kusoma au kucheza na kufanya mambo ya starehe huwa tumo katika hatari ya kupata vijeraha vidogo vidogo kama vile vya kujikata, kuumia, kuanguka, kupigwa kujichuna na kupata hasa vidonda. Katika maisha haya ya mashini na haraka mtu hawezi kujua lini ajali itatokea ambayo inaweza kumletea (hatari) hata kama akijaribu kujilinda kwa uangalifu sana. Njia bora ya kujilinda ni kuwa kopo la Kotadora nyumbani kwako na mfukoni mwako. Kotadora ni dawa ya bora sana na ni dawa ya muhimu isiyokuwa na hatari yeyote. Kotadora imetengenezwa kwa kuchanganya kwa uangalifu sana dawa bora zenye faida kubwa.
