U.S. Troops Land In North Africa

Strategic Points Seized For New Front Against Hitlerism

EVENTS ARE MOVING FAST IN NORTH AFRICA. AMERICAN AND BRITISH TROOPS HAVE LANDED IN FRENCH NORTH AFRICA AND CAPTURED SEVERAL STRATEGIC POINTS. THESE FORCES ARE SWEEPING FORWARD RAPIDLY FROM THEIR LANDING POINTS WITH SUPPLY TRAINS UNLOADING IN RECORD TIME AT THEIR REAR.

THIS ATTACK OF FRENCH NORTH AFRICA WAS UNDERTAKEN IN ORDER TO FORESTALL GERMAN INVASION OF NORTH AFRICA AND TO GAIN A VANTAGE GROUND FROM WHICH TO OPEN A NEW FRONT AGAINST HITLER AND HIS SATELLITES, AND FOR THE LIBERATION OF EUROPE.

Events Are Moving Fast

New landings by Allied Forces on the Atlantic and Mediterranean coasts of French North Africa are reported, and Reuter's correspondent at Allied Headquarters says that these forces are sweeping forward rapidly from their landing points with supply trains unloading in record time at their rear.

In an interview with the correspondent, General Eisenhower, Commander-in-Chief of the Allied forces, said: "I am well satisfied with the progress of the American armies: the work of the British and United States Navies has been marvellous."

On the Mediterranean coast, at Algiers, where hostilities ceased after only a few hours' fighting, British forces and more American forces have landed, and some useful airfields are now in Allied hands.

On the Atlantic coast, Fedhala, Port Lyautey and Mehdia, in Morocco, have been captured in the face of stern resistance by land, sea and air. At Casablanca hostilities were resumed after the rejection by the French of an offer of an armistice; this morning Vichy admitted that the position around the city was serious.

A special communique from Allied Headquarters in North Africa says that General Giraud has arrived in Algeria from France and has "assumed leadership of the French movement to prevent Axis aggression in North Africa." General Eisenhower will give him full support.

More U. S. Gains On Guadalcanar

A communique issued in Washington says that on November 7, American troops continued to advance from the area near the Metapono River eastward along the northern coast of Guadalcanar Island. There was no fighting in the area west of the American positions.

On Sunday United States planes attacked ground installations and destroyed six landing boats on the beaches west of the American positions. Planes destroyed three Japanese type biplanes at Rekata Bay.

A United States destroyer bombarded enemy areas east of Koli Point on the north coast of Guadalcanar.

Early on Sunday night motor torpedo-boats attacked two enemy destroyers in an indispensable straight, and scored a torpedo hit on one of them.

An American destroyer, announced in a previous communique as having been sunk during the night of October 11-12 was the destroyer Duncan. Five officers and 58 enlisted men were killed or are missing.

Events In North Africa Thrill Russians

The Allied grip on both ends of the North African coast is thrilling public opinion in Moscow, says Reuter's special correspondent. Events have lent actuality to the Soviet anniversary slogan, "Victory for the Anglo-Soviet-American fighting union."

A striking new war poster, plastered throughout Moscow, shows British, Soviet and American hands tugging at the ends of a rope looped round Hitler's neck. The rope is inscribed, "Agreement treaty betwen the U.S.S.R. Britain and the United States." The poster says, "The evil foe will not find an escape from this loop."

Sub-editing and headlines on political news by R. V. Selope-Thema, 14 Perth Road, Westdene, Johannesburg.

Hitler's Position Unenviable

The tasks facing the Allied forces attacking respectively on the Atlantic and the Mediterranean coasts of North Africa are very different, says the military correspondent of the Evening Standard. The Atlantic swell is very much greater than in the Mediterranean, and the French army in Morocco is much more formidable than the force in Algiers.

Geographically, the most important attack is the one against Algiers, for it brings Allied troops into the heart of the Mediterranean. A great deal depends on the speed with which the Americans can advance from Algiers and how much reserve the Germans have collected in southern Italy.

Hitler's position at the moment is unenviable, but the possibility of his attempting recovery strokes must not be overlooked. Neither the German Army nor the Luftwaffe is now fully engaged in Russia, and both have good defensive and "bridgehead" positions on the Volga and Don and in the Caucasus and the Crimea. Probably something like 15 Panzer divisions have been withdrawn from the immediate battle zone and possibly as many as 1,000 operational aircraft.

Hitler might strike at Tunisia, but this means risking the Italian Fleet. His obvious reply is to try to divert the British forces into the Eastern Mediterranean; or he might violate Turkish neutrality to get a rapid land passage.

Allied Advance In New Guinea

A communique from Allied Headquarters, South-West Pacific, states that in New Guinea fighting continued in the vicinity of Oivi, 55 miles south of Buna. In a sharp contest Allied troops enveloped hostile positions at Gorari, inflicting heavy casualties on the enemy. The action continues.

Allied attack planes, in direct support, raked the Japanese front line positions with bombs and machine-gun fire, while strong forces of fighters and medium bombers attacked enemy lines of communication in the rear areas.

Allied medium bombers attacked Kavining during the night, heavily bombing the aerodrome, runaways and dispersal areas.

An Allied heavy unit bombed and disabled off the coast of Cape St. George a transport of 5,000 tons heading for the Solomon Islands. The ship was beached to prevent it sinking.

EIGHTH ARMY'S SMASHING VICTORY: This picture shows an Italian tank destroyed by the victorious Allies in the Western desert.

Rommel's Afrika Corps Routed And Driven Out Of Egypt

The Eighth army has routed German and Italian forces in Egypt capturing thousands of prisoners including many Generals, guns, tanks and other war materials. The defeated Axis troops are fleeing into Libya with the Allied forces on their heels.

When the victorious Allied troops broke through Axis lines of defence, the Germans fled, leaving behind thousands of Italians without transport, food and water. These Italians are now surrendering to the Allies.

No serious fighting is now taking place in the desert to check the Eighth Army's victorious advance towards its objective, which is apparently Benghazi.

Given a day's grace by torrential rains which slowed down the Eighth Army's advance, most of the remaining Axis forces were able to cross the Libyan border before the Allied troops reached it.

Some isolated pockets of resistance remained in Egypt, but, with the return of dry weather, the forward troops of the Allied Army have probably mopped them up by now.

The Luftwaffe, which for the past week has been unable to give protection to the disorderly retreat of Rommel's columns, has withdrawn completely into Libya, and the nearest of its aerodromes to the advancing Eighth Army is at Gambut, more than 20 miles west of the border.

Prisoners continue to be collected in thousands. Three thousand more Italians were captured.

Sapa's war correspondent says that with the return of fine weather Allied heavy and medium bombers have again attacked the frontier passes between Egypt and Libya and Halfaya Pass and the Sollum road are believed to have been partly destroyed. The sharp bends in the road carved into the steep side of the Halfaya Pass and portions of the precipitous Sollum Road are particularly vulnerable to destruction from the air, as are moving vehicles in the defiles; nevertheless remnants of Rommel's army succeeded in getting through. The heavy downpour of 36 hours, a day or two ago, gave them a good start in their final leap for the frontier.

But the Axis columns that have succeeded in withdrawing into Libya cannot escape the renewed heavy attacks of the Allied air forces; while such straggling groups as were left behind in the rush over the border are being systematically mopped up.

Madagascar Conquered

Hostilities in Madagascar have come to an end, and the island will be administered by the Free French National Committee which has already appointed General Le Gentilhomme as High Commissioner and he will assume duty shortly.

The British Government is consulting with the Fighting French on arrangements for the island.

Fighting In Stalingrad

Fighting in Stalingrad continues, but without new major activity, says the correspondents of The Times in Stockholm. At one point the Germans attacked with six tanks, which the Russians allowed to come close and then destroyed all six with bombs.

The German thrust in the Caucasus, south-east of Nalchik, continues to fare badly. A large part of their armour has already been destroyed in a clash with the reinforced Russians, and the Germans are now blaming a fresh fall of deep snow for the present check. If this is even partly true their chances of forging farther ahead against Orkhonkidze or Grozny are meagre, as the snow in the elevated regions is bound to be a formidable obstacle for months.

The Germans also mention a new forward movement north-east of Mozdok towards Daghestan, but whether this exceeds a reconnaissance is not indicated.

BANTU WORLD

SATURDAY, NOVEMBER 14, 1942.

From Cairo To Berlin

When the Eighth Army was driven from Libya into Egypt last June, some people thought that Hitler's hordes would overrun Africa as they overran Western Europe. At that critical time "The Bantu World" told its readers that: "The ups and downs of war should not deter us from rallying to the defence of our country and the cause of democracy. As we have already pointed out the Libyan campaign has been so far a seesaw, and we would not be surprised if at the impending clash the tables were turned against Rommel's forces." The tables have been turned. The Eighth Army has dealt Rommel's Afrika Corps a staggering blow. Tobruk has been avenged in a manner that has shown Hitler that the Allies are now determined to hit and hit hard.

The victorious Allied forces are now pursuing the defeated Afrika Corps into Libya, and it looks as if the doom of this once formidable enemy is sealed. The landing of American troops in North Africa, it seems will make the escape of Rommel's forces difficult if not impossible. Already President Roosevelt has sent a message to the rulers and people of Tunisia, which is on the West of Libya, asking them to allow American troops a passage through the country, 'thus enabling them to accomplish their mission—the elimination of the forces of evil from North Africa". There is a likelihood, therefore, that the defeated German and Italian forces, which are now retreating westward, would be attacked by the Americans in Tripolitania, it the Vichy French in Tunisia do not offer any resistance.

The defeat of the Axis forces and the landing of Allied troops in North Africa are a prelude to some important steps about to be taken by the United Nations. According to Senator Tom Connally of the United States the American attack on North Africa was "to prevent a threatened invasion of North Africa by Axis troops retreating from Egypt; to place American troops in a strategic position to aid the British against Rommel; to establish bases to aid the Russians; and to set up bases for possible action against Italy across the Mediterranean."

Readers will recall a statement made by Field-Marshal Smuts in London recently. The road to victory, he said, was from Cairo to Berlin. At the time when this prophetic statement was made, many people, no doubt, did not understand the meaning of it. But to-day its significance is appreciated. We know now that the Allies have been planning to "gain vantage ground from which to open a new front against Hitler and Hitlerism, to cleanse the shores of Africa from the stain of Nazi and Fascist tyranny, to open, the Mediterranean to Allied sea and air power and thus effect the liberation of the peoples of Europe from the pit of misery into which they have been flung by their own improvidence and by the brutal violence of the enemy."

It would be the height of folly, of course, to suggest that the defeat of Rommel's forces and the landing of Allied troops in French North Africa will bring about the immediate collapse of the Axis powers. The fight is still going to be long and bloody. But final victory is assured the forces of democracy.

Stalin Gets Church Blessing

For the first time since the revolution, the Russian Orthodox Church has given an official blessing to M. Stalin.

On the occasion of the 25th anniversary of the Soviet regime, the acting Patriarch sent a message to the Kremlin hailing M. Stalin as the "divinely anointed leader of our armed and cultured forces, leading us to victory over the barbarian invasion." The message says: "May God bless with victory and glory your great deeds for the fatherland."

The Metropolitan Nikolai of Kiev, Primate of the Ukranian Church, has wished M. Stalin long life and strength in order "to cleanse the Ukraine of the German filth."

Civilian Protective Services

In order to win this war, not only must we have an army, a navy and an air force, but we must also completely mobilise man-power on the home front, in the factories and for civilian protection. We, as civilians, must be trained and prepared to meet any emergency, either from the sea, land or air because in modern warfare the enemy is able to create havoc, destruction and panic far behind the positions held by our fighting forces. With this knowledge in mind, the Government established, in South Africa, Civilian Protective Services, and has entrusted the organisation of these services to the City and Town Councils of the cities and towns of the Union. It has appointed Councillor J. S. Fotheringham, J.P., as Chief Area Commandant for the City and the magisterial area of Johannesburg, and Mr. Graham Pallencen has been appointed the honorary Director of all non-European Civilian Protective Services for the same area, under Councillor Fotheringham. Already large numbers of non-Europeans have enrolled in the services and they are being actively trained, but several thousand more recruits are required before it can be said that the organisation is reasonably capable of meeting an emergency.

There are numerous sections of the organisation, such as fire-fighting, medical and first-aid squads, rescue and demolition section, transport, warden and civilian guard sections. All of those different sections are equally important, and all play their part for the security and safety of your homes and families.

Many of us for various reasons cannot join the fighting forces as we would wish to do if we had our way, but most of us can take our share in the war effort by joining the Civilian Protective Services, and in that way doing our bit to win the war.

Numbers of Africans, Indians and Coloured men have already attained important positions in the Civilian Protective Services and are pulling their weight. All services are purely voluntary and members are not required to serve anywhere outside the magisterial area in which they attest. The Government on its part guarantees compensation for injury or loss sustained by members while on duty.

It is hoped that as many Africans as possible will come forward and join the Civilian Protective Services. Those who live in Pimville, Orlando and Western and Eastern Townships can apply to the township offices, or enquiries can be made at the non-European C.P.S. offices, 307, third floor, His Majesty's Buildings, Eloff Street, Johannesburg, where officials will be only too glad to give any further information.

Military Payment To Africans

At the office of the Native Commissioner in Pretoria up to last month Military Allotments were paid out on the third Wednesday in every month and the Grants from the Governor-General's Fund on the Thursday following. Owing to the considerable increase the payments are being spread over two days in respect of the Military Allotments, and recipients of Grants from the Governor-General's Fund will be paid on the same day as they receive their Military Allotments so that they only need call once monthly at this office. From this month (November 1942) residents of Lady Selborne, Newclare, Marabastad, Atteridgeville and Bantule will receive both Military Allotments and Grants from the Governor-General's Fund on the third **Thursday** of every month, and this month, their date of payment will be the 19th. Residents of all **other** areas in Pretoria will continue to be paid on the third Wednesday, and this month it falls on the 18th. Next month (December) the third Wednesday is Dingaan's Day, a Public Holiday, and they will be paid on the day before, that is Tuesday the 15th.

The Non-Europeans' Cause

(By Tema)

Many of the non-Europeans want to know what interest they have in this war and how its outcome can affect them one way or the other.

I hold that this war is likely to affect them most vitally and I will tell them why.

This terrible war which we are fighting is a war that will decide the future of all the peoples and all the nations, and particularly will it determine whether the oppressed peoples of the world are to be even more oppressed or whether they will be liberated. On the outcome of this war depends whether or not there shall be a future, for the backward peoples.

How can the non-Europeans believe this, some of them may ask? My answer is that they have the guarantee in the fact that they are fighting together with the three greatest liberty-loving nations of the world—Britain, Soviet Russia and America. Our enemies, Germany, Japan and Italy are at war with us because they hate freedom and are opposed to equal opportunity. They want to enslave the people of all nations and they aim to drive back the oppressed races to the conditions which prevailed a hundred years ago.

Should the enemy win, there will be a long dark and cold night for all people of the world. For non-Europeans all progress will cease, and nothing but the worst kind of slavery will fall on them.

All the nations in the world, whether civilised or uncivilised, have legitimate grievances, but when I look at the position of the non-European in this country through the eyes of the long past, they are much more fortunate than the peoples of Europe have been. We have endured thousands of years of oppression and suffered untold millions of victims, before we attained the liberty which we now enjoy, and which we now defend, whereas non-Europeans are enjoying already some of the benefits which we gained after thousands of years of continuous struggle and at a cost of the suffering of many generations.

In a way, Non-Europeans are also the heirs to the knowledge the great men of the past have won for all mankind, and it must be remembered that the progress that Non-Europeans make in ten years, took the Europeans many hundreds of years, and Europeans paid for that progress in ten times more suffering and pain than is paid by the Non-Europeans today.

All the wonderful dicoveries, all the great achievements are open to them to share. It is true they have not yet the opportunity to enjoy the great legacy that the great men of the past have left us, but they have made great progress, and what is more important, the road towards opportunity and development is gradually opening to them.

If they put on one side of the scale their just grievances and on the other side all they have achieved in the past hundred years—their awakening from a state of backwardness in human development, of tribal extermination, they will find that their gains much outweigh their losses.

In defending South Africa, in fighting for the cause of freedom which the great Allies represent, non-Europeans are fighting for their own cause and for a South Africa that can and will be mother to all her children, White and Black.

Awards To Members Of The Native Military Corps

The Director of the Non-European Army Services has much pleasure in announcing that three more members of the Native Military Corps have been awarded the Military Medal for bravery in the field. They are

No. N.14051 Sgt. Reuben Moloyi.

No. N.10718 Pte. Hermanus Chaka.

No. N.12389 Pte. Sprinkaan Masemula.

Sgt. Reuben Moloyi comes from Ladysmith where he attested on February 3, 1941. He embarked for North in September of that year. He was originally with the 16th Field Ambulance, but was later transferred to the 15th Field Ambulance. He was captured at Tobruk on 20th June of this year, and the story of his amazing escape was published in the papers a short while ago.

Pte. Hermanus Chaka comes from Bloemfontein. He attested at Bloemfontein on the 6th January 1941, and embarked for North in September of that year. He was with the 1 S.A.P. He was also captured at Tobruk in June of this year, and made his escape together with Sgt. Moloyi and Pte. Masemula.

Pte. Sprinkaan Masemula comes from Pretoria where he attested on 20th January 1941. He embarked for North in September of that year. He was originally with the 2 S.A.P. and was later transferred to the 1 S.A.P. He, too, was captured at Tobruk in June of this year, and effected his escape together with the above two members of the Native Military Corps.

This brings the recipients of the Military Medal awarded to members of the Native Military Corps to 6. The total number of Military Medals awarded to men of the Non-European Army Services is Cape Corps 3; Indian and Malay Corps 1; and Native Military Corps 6.

A special grant of £25 has been made to each of the recent recipients of the Military Medal, namely:

No. N.14051 Sgt. Reuben Moloyi;

No. N.10718 Pte. Hermanus Chaka;

No. N.12389 Pte. Sprinkaan Masemula.

Three similar grants have previously been made by the Native Affairs Department to members of the Native Military Corps who are in receipt of the Military Medal.

Non-European Iron And Steel Work

The African iron and steel labourers in the manufacturing and engineering industry receive a minimum of 21/- per week. Their work is terrifically hard, the heavy work and mostly the dangerous in the foundries being done by them. The iron and steel manufacturing and engineering industry includes the heavy industry controlled by rich companies, who are making huge profits.

The S.A. Non-European Confederation of Iron, Steel and Metal Workers Union which represents the Non-European workers chiefly composed of Africans have recently put in demands to the Transvaal Iron and Steel Manufacturers Association, the Transvaal Engineers and Founders Association and the other employers' association for a minimum wage of 40/- weekly for labourers and 55/- for semi-skilled workers, and for improved working conditions which will be dealt with in next issue.

All those who stand for a better standard of living for Africans and those who realize the need for improving war production should support the representations of the African iron and steel workers.

Trade union and other bodies are urged to adopt resolutions in support of the Union's demands. The general secretary of the Union is Mr. G. W. Stemele and head office is at 20 Von Weilligh St., Johannesburg.

A general meeting at Krugersdorp was the beginning of a new campaign to organise the workers into their trade union and to back their demands to the employers, and send to both, the National Executive Committee and to the Johannesburg Local Committee of the S.A. Trades and Labour Council, to which bodies the Union is affiliated.

Soldiers' Friend Column

Question: Douglas Ngcobo of Palmietkuil North wants to know whether arrangements have been made for the payment of Cost of Living Allowances to male dependants of members of the Native Military Corps.

Answer: This matter is at present under consideration and a formula suitable to all concerned will shortly be published.

R. Roamer Esq. K. A. On Nonentities

If you open your dictionaries and consult the chapter on "N's" you will come across this word-Nonentity. The learned book will tell you that a nonentity is a "person or thing of no importance." We want to talk about such persons today because we have met many persons of no importance who believe they are important.

Such people have a mighty high opinion of themselves: So mighty, in fact, that they think they are the only people who matter in the world. Of late our daily tasks take us to Johannesburg Station quite a lot. There, especially over the week-ends, we confide against nonentities who think it is the height of social distinction to be seen walking about on the platforms. This walking about must be done in their best clothes so as to be something of note.

You don't know what confounded fools these people make themselves at the Station. Yet they think they are doing what is of great importance to themselves and bakers-on. Some carry out newspapers under their arms when they read upside down when pretty girls pass by. It is really surprising how self-conceited nonentities always do the silliest things when pretty girls are about. Do girls admire this sort of cheap publicity?

We think they do—we say this in passing—for we have seen girls encourage their "young men" to do the silliest and naughtiest things to win their smiles. An nincompoops are at their most stupid best when ladies are near at hand to cheer them to greater efforts in stupidity. We told you that we collide against these people of no importance at the Station as we hurry along to catch our trains. To yours truly this is one of the minor evils he has to bear for his sins in this world.

Then we meet the nonentities again in the Station non-European Tea Room. They go to this Tea Room because they think it is "great" to be seen there and served by a bored looking Coloured lady. They will sit at tables with their hats on, drink tea out of saucers, flick cigarette ashes into their saucers and generally behave as if they were fit for the waste-paper baskets. Mind you, they are accompanied by ladies. And these ladies do not seem to mind all these atrocious manners.

We have a feeling that our womenfolk love fellows who Don't Care." You will find these "I don't Care." Nonentities always in a crowd of admiring chicken-brained women. To these women-apparently—nonentities are Somebodies. Then we clash against them in our shows. No show is without its selection of Nonentities. They attend shows, not to enjoy them, but to enjoy being seen moving about all over the hall—drawing attention to themselves.

Jeremiah and Joshua used to belong to the Society of Nonentities. They did a lot of impossibly funny things, thinking they were the things that mattered. They gloried in their fighting abilities; as if fighting in the streets is a mark of greatness. They boasted of their "we don't care for people's opinion." attitude and on the strength of these boasts behaved as little pigs. When they came for a job to us and we employed them, we tried to knock sense into the thick skulls.

We told them that what they did only cheapened them. They argued: "But people admire us for what we do!" Yes, we agreed; but what kind of people are those? Are they of the responsible type? Don't they belong to circles that glorify cheapness? Our arguments at least began to take effect. To-day they are changing for the better. They are beginning to realise that an empty vessel does, in fact, make a lot of noise.

Women do not like to be blamed by a man for their shortcomings. They like to blame each other. We say this because recently they have been saying hard things against one another in the Women's Page. They admitted they were jealous. They admitted they had "gramophone record" tongues. They even said homes are broken because women talk a lot. And one actually said they like to scandalise each other.

Because they were saying these things themselves, it is all right in the garden. Now let a mere male dare to say women are the greatest nonentities, then heaven protect that male from abuse and condemnation. Yet that is true. There would be fewer or no nonentities among men if our women prized nobility of thought and action as they should. You will notice, as we said before, that nonentities are plentiful where women are plentiful.

In our dances where women go unaccompanied by male friends and dance with everybody, you find nonentities in great numbers. They know they will find plenty partners among the foolish young and old women who go alone to dances. And, as in our dances introductions are just passed round on a plate, after a nonentity has danced with a nonentity-girl, he is sure to know her name, address and when to visit her.

Well, if such a state of affairs obtains in these circles of ours, who wouldn't be a nonentity? You don't have to study and pass a high standard. You don't have to live a life of usefulness to your people. You don't have to be careful of yourself and walk along the narrow path. No, all you need do to win the favours of our ladies is to be a Nonentity and do cheap things. You win their esteem. You become "great" in their eyes. They just love to be seen with you.

The Late Stopnina Ncoaneng

At the age of 30, death took place at 7877, Orlando West on October 1, 1942 of Stophina Mosela Ncoaneng after 16 years' illness. She was born at Bloemfontein, and received her early education at St. John's Methodist, Bantu High School and later went for her Teacher's course at one of the Colleges.

She has always identified herself among her friends as a promising student and she keenly took part in the activities of the Students Association, Band of Hope and many other gatherings of the day.

At the time of her death she was a member of the I.O.T.T., Bantu Methodist Women's Manyano. The funeral took place at the Bantu Methodist Church, Orlando, and was conducted by Rev. Mokhele assisted by Mr. Rathebe of Orlando. At the cemetery Mr. Angoma with an inspiring speech recalled his personal association with the late Sister Ncoaneng as far back as 1921 while in the 'teens' of her Love for the Bloemfontein Band of Hope and many other associations. Many people were present especially those of the I.O.T.T. and the Women's Manyano. She was the daughter of Mr. and Mrs. Ncoaneng of Bloemfontein.

2nd Wife :— "Here's something to drive away pain and depression—a bottle for each."

1st Wife :— "You mean two kinds of pills."

2nd Wife :— That's right. Every Nov-Apiol packet has two bottles of different pills. One kind drives away your pain; the other kind makes you feel fine—a tonic to strengthen you with iron and fresh blood."

1st Wife :— "That's sounds wonderful. Where do I get them?"

The African Blind Welfare Association Makes A Forward Move

The African Blind Welfare Association has been very active this year. The Association is fully conscious of the fact that there are other disabled people other than blind people, so in order to get some first hand information some experts on various handicaps have been asked to come and lecture to the Association.

Mr. Theron, inspector of special schools for the Deaf and Dumb gave the Association a very educative lecture about Deaf Mutes. The second lecture was delivered by Mrs. Levin of the Institute of Mental hygiene she spoke about those who are mentally defected and this was an eye opener to the Association for there is a lot of spade work to be done. Mrs. A. Kerr lectured on the Care of Cripples and this has inspired the Association to do more than just listening to lectures. We have now been given the information we needed and we are going along to practical work. This is no time for tall talks without deeds. The Association is determined to extend its services to all disabled African people.

The Association has started a very active local branch at Randfontein. A general meeting held there showed the true colours of this local branch. The meeting was very well attended and the people of Randfontein showed a very keen interest and a sum of £3 was handed to the Chairman Mr. J. M. Nhlapo. In Mr. Nhlapo the Association has got a very enthusiastic leader and is quite appropriate. Randfontein is taking the lead and we are looking forward to other centres to do the same thing.

A Cordial Invitation to The Annual Meeting to be held at Ezenzeleni. On November 14, The African Blind Welfare Association will hold its second Annual Meeting at Ezenzeleni at 3 p.m. The Association extends a very warm invitation to All Africans this will be a great occasion, the greatest meeting ever held in South Africa. I appeal to the Sons and Daughters of Africa, let us make this meeting a very great success. Some of you have never been to Ezenzeleni, a very progressive African Training Centre, with wonderful vocational blocks hostels and staff quarters. The work done here is simply amazing, and the singing which you are sure to hear will remain ever ringing in your ears. So Sons and Daughters of Africa here is a golden opportunity for you to see what your people can do when they are given a chance.

South East Rand Items

By S. Solomon Modise

It is with deep regret that we have to announce the death of Waltham Goba, who came to the Sub-Nigel in 1922 and was at the time of his death head of the Native Clerical Department of the N.O.T. Our sympathies are extended to the widow and children in their irreparable loss.

The Nigel Gamma Sigma Club War Fund Concert on October 24 was an outstanding success. A fair sum was realised and it is hoped that our African Troops will desire some form of relief from the monotony of army life by the small comforts which will hope the donation will provide. Cngratulations to Messrs F. J. Smith Chairman, P. P. Moroke, Secretary, Mhlambi, Treasurer, the Big Six and the Rythm Stars who contributed towards the success of the function. Among those present were Mr. Theo. Twala, Supervisor of schools, and Mrs. Twala, Messrs Ngwenya, Mtetwa, Wilkinson, Mkwanazi, and many others. Thearmy was well represented by a company of over 150 soldiers.

Mrs. Solomon Modise is on an extended visit to relatives at Orlando.

The Anglican Community held a concert some time ago while the attendance was poor owing to the weather, the perfomance was excellent. Mr. J. Moahlodi, presided.

We take off our hats to Mike T. Smith who topped the mark on Sunday by manouvering the Try Again to Victory at the "Sport." This, young man has proved once again that he is not only the best soccer coach at the East Rand but in the Transvaal if not in the union.

To individual members of the club we extend the heartiest compliments.

Our district is advancing by leaps and bounds in spite of these difficult times. we are hoping to be the leading African centre in the whole East Rand afte the war.

Tennis, for the Owen Jones' war Fund Trophy, will soon be started.

Enthusiats are awaiting the Gold Fields League Secretary to furnish them with detials of the competition. How long are we to wait!

The Growing Work Of The B.P.C.

(By H. D. Mlonyeni)

Perhaps very few have watched from infancy the studies the Bantu Presbyterian Church has assumed, the inherited child from the mother, who today is the symbol of Bantu church ideal. Most remarkably to be appreciated is the Transvaal branch under Rev. K. Nkabinde who together with his wife have combined, practical idealism with national realism, the results of ardous stress and strain amidst the most divers strain of a series of multitudinous opposition of prying into church matters of a group of misformed personalies, that raise the material to the supreme than the popularly konwn spiritual idealism.

Most transpiring into the fabric of this strong pattern is the network of strong men like Mr. S. Ndiki, A. Tshaka, M. Mpamba, F. Mdingi, M. Lupuwana, A. Mgamlana and many others including the veteran Mr. H. B. Pilliso reservon flowing its wisdom to the building of a united church within the church.

This effort to expand the church was apparent in one of the most successful revival services ever conducted at Crown Mines. With Mr. M. Mpamba and Mrs. Nkabinde on the chair, the service

(Continued in column 2)

was only a prelude to the constructive service by the Reverend on the Sunday when in the presence of young men and Women's Christian Associations, the Beef demonstrated its challenge to what it feels is a stab in the back in freedom of worship in the church.

The corrilation of views in their their many churches today will, we hope, bring into reunion the many branches denominationalism, which if some were pumed would allow for a fertility of action and thought within the realm of the church precints.

Here you see Jackson sound asleep. He is probably dreaming about the day when he can marry Lucie. He is sleeping soundly because he feels safe with an Eveready Torch nearby that will make a bright light as soon as he wants it.

Something has awakened Jackson and he is frightened. There is a noise outside. It sounds like a man knocking over empty tins. Jackson sits up and listens.

Then he picks up his Eveready Torch and shines the light on the entrance. He laughs out loud. It's a little dog looking for something to eat. He is glad he had his Eveready Torch. Now he is no longer afraid and can go to sleep again.

Remember EVEREADY FLASHLIGHTS AND BATTERIES will bring you bright light any time. Always ask for Eveready!

Why Dan's Teeth Sparkle!

Dan has beautiful teeth and a happy smile! He knows just polishing his teeth is not enough. He looks after them properly, and at the same time keeps his mouth fresh and clean and his gums firm and healthy.

Like his fellow Africans, Dan has good strong natural teeth, but modern conditions of living and soft foods would soon decay them.

So, first thing in the morning and before he goes to bed at night, he brushes his teeth with Colgate Ribbon Dental Cream, which polishes them, AND washes away all the small pieces of food that hide between the teeth and start tooth decay.

You can also have clean sparkling teeth if you get into Dan's good habit of using Colgate Ribbon Dental Cream twice a day.

WOMEN'S PAGE

Be An Example Of What You Preach

Madam,

Trains and stations are too public for any group of uniformed church women to engage themselves in their most important undertaking of backbiting Mrs. So and So's daughter for at these places there are different kinds of characters.

I have time and again been unfortunate enough to come across a group of prayer women clad in their church attires, at the stations or in the trains. Their chief topic is always based on Mrs. Tom's daughter, Mrs. Dick's son, and Mistress Harry a lady teacher in their location.

"How do these people expect we sinners, as they call us, to repent or ever to listen to their sermons if they speak like this in front of everybody. This I asked from another lady, whom I presume, though she was not clad in uniform, was one of them.

She pompously told me that we should not look at other people's wrongs but just believe.

I became short of suitable words through embarrassment.

I know that there is no one that is perfect on earth, but really we can try to be examples of what we preach.

Even if it is part of our duty to scandalise, but for goodness sake; can we not control our tongues in public places!

The tongues of our uniformed mothers and sisters are destructive to the church.

The heathen's heart is not touched by their sermons.

Their tongues have driven out our brothers and sisters from the house of God to the valley of destruction; where there is gambling, robbery, drinking and murders.

To prove what I write will any of the readers just stand near any group of uniformed prayer women and listen to their conversation and after that come back and tell me.

Let your works shine before men, so that the people may see your good works, and glorify your Father in heaven St. Matt.: 5.

(Perhaps this article would have been more effective had it been written in one of our own languages. The people attacked here are mostly those who read vernacular in our newspapers—Editress)

WINFRED,
Alberton.

"Our Father"

"Our Father, lead us not into temptation, but deliver us from evil."

Dear Bantu Sisters,

A few years ago a priest was sent to look after the prisoners of a large prison in America.

He found there was no church where the convicts could all come together to worship their God. He was told that it was quite impossible to build a church, for the prisoners, in the prison grounds.

But this priest loved his flock, and was determined to help them in every way.

Through the prayer of faith this priest got money and materials, and the convicts then began to want to serve the sinless Christ who had suffered and died for them, so they helped by building the church. Knowledge and skill which they had used before in a sinful way, they now used to make something beautiful for their Father's House.

Today, the large beautiful church stands in the prison-grounds, and the story it tells, and its beauty and sacred peace, help many a poor soul to know the love of Jesus.

Several of the men who had proved themselves good painters, bricklayers etc., while they were building the church, got honest work when they came out of that prison.

This Week's Thought

To keep my health! To do my work!
To live!
To see to it I grow and gain and give!
Never to look behind me for an hour!
To wait in weakness and to walk in power;
But always fronting onward to the light.
Always, and always facing toward the right.
Robbed, starved, defeated, fallen, wide astray—
On, with what strength I have! Back to the way!

—Charlotte Perkins Stetson.

The priest, who had helped in hundreds of ways to build the church, above all, helped his flock to see the wonder of the words in St Luke, chapter 23, verses 39—43.

He showed them the courage of the crucified sinner, and how he got his courage from Jesus.

The crucified sinner admitted his own sinfulness, and did not ask to be taken off the cross. He just prayed the prayer of faith: "Lord remember me when thou comest into Thy Kingdom." And our Lord's answer shows how lovingly He receives the prayer of sinners.

Think of Peter, the simple Jewish fisherman, swearing and lying, when he was frightened, and then later often he had accepted the power of Jesus' Love more fully into his life, he was changed into a bold follower of Christ, willing to suffer for His Master.

PRAYER

O Lord Jesus, help us to remember your loving words,
"In the world you will have tribulation, but be of good cheer,
I have overcome the world. "Amen."

Babies Need Exercise

Babies need exercise to develop their little muscles properly, and the finest of all exercise for them, because the most natural is kicking.

Most babies will kick their little legs about, if allowed to do so unhampered by clothing. After baby has had his bath, let him lie, quite unclothed except for a vest, on your knee and kick as much as he likes. After his sun-bath in the garden, he can be placed on a thick rug on the ground and left to kick and crawl.

At the stage, when he wants to crawl about on all fours, let him do so freely, provided there are no obstacles or other dangers in his way.

To encourage the child to use his own power and bodily energy, after his bath place him on his stomach on a rug on the ground, with a rattle or other toy within reaching distance. Don't hand it to him; let him make the necessary effort himself.

As he grabs for the rattle, his neck and back muscles come into play. A mother can help baby to exercise by gently moving his arms up and down and stretching them out at the sides. The greatest care is necessary to avoid quick and jerky movements.

Household Hints

A thimble makes an excellent "darner" when mending the finger tips of gloves or small holes in silk stockings.

When making fruit pies or tarts, mix a little cornflour with the sugar before adding it to the fruit. The juice will then be thick like syrup and will not boil out.

When mixing puddings for steaming, use milk and water instead of milk. The puddings are then lighter.

When putting a tack into a place where it is difficult to hold with the fingers, thrust it through a piece of stiff paper or card, leaving yourself a long end to hold.

To open high windows easily screw a dresser hook into the top frame and another hook at the end of a crook-handle stick. The window can then be manipulated quite easily.

To mend a tear in an artificial silk or parchment lamphade, apply transparent adhesive paper inside.

Mirrors, brass, chromium, etc, will polish more easily and look brighter if you use a prepared polishing cloth. Make one by wringing out your polisher in a pint of water in which a piece of whiting, about the size of a walnut, has been dissolved.

If you have need to sew a button on a mackintosh, stick two small pieces of adhesive tape criss-cross at the back. You will find the job easier and the button will never pull out again.

with a really hot iron on two thicknesses, first a dry and then a wet cloth.

For ironing embroidery lay it face downwards on thick towelling or a soft blanket, and work from the back, using a cloth wrung out in cold water.

Organdie frills and flounces should be ironed quickly while wet. Lace edged handkerchiefs pay for the same treatment.

Importance Of Pressing Work Correctly

When ironing remember these hints—they will help you :— Silk and washing satins should be ironed on the wrong side when they are evenly damp with a hot iron. Shantung and Pongee silk must be right dry before pressing with a warm iron—never a hot one.

Any knobby materials, whether cotton or silk, should be smoothed out with a very hot iron while they are still damp.

Patterned and gaily hued materials should be ironed with a medium iron. Chintzy materials look best ironed on the wrong side when wettish.

Always use a cloth for pressing woolens and work from the wrong side. To banish shiny patches try pressing lightly

NERVOUS BREAKDOWN

Prostration
Fear of Insanity
Loss of Confidence
Inability to Work
Sleeplessness

NERVOUS BREAKDOWN usually follows months of worry, sleeplessness and irritability. Nerve-poisons known by doctors as Neurotoxins actually accumulate on the Nerves in the form of minute growths. As health returns, these dissolve and get swept away in the Bloodstream. Dr. Heinz Nerve Restorative is unequalled for combatting Nervous Breakdown; it gives peace to the Nervous System, clears away Neurotoxins and is an acknowledged all-round Nerve tonic.

Fear of Insanity

"For the past four years I have been a victim of Nerves and have been through a terrible time, very often deciding that I was, without doubt, going quite insane. I tried various remedies and was even treated by a doctor for a few months—despite which I improved very little. However, I decided to give Dr. Heinz Nerve Restorative a trial and felt much better after having taken it for a few days only. I have just finished my third bottle and feel an entirely different person, eating and sleeping well, whereas before I had no appetitie and hardly got any sleep at all."—*Miss S. Diamond, Bloemfontein* (Case 865.)

DR. HEINZ
NERVE RESTORATIVE
is obtainable in both liquid and tablet form at 5/6 per bottle or 6 bottles for 30/-. Severe cases usually require a full course of 6 bottles.

That flashing goal came from Pa! The crowd had been anxious, eager, expectant, waiting, w-a-i-t-i-n-g for it. No score—and only two minutes to go. Just on time Pa streaked through the field with the ball at his feet, and . . . *crash!!!* it was in the net! A wonderful goal.

The exploits of Pa, now famous, are really the achievements of super-fitness. Pa's Energy! His Stamina! His Joy in Life! Amazing! And all resulting from Intestinal Cleanliness and Tonic Power. Pa is a *Result*. Parton's the *Reason*.

Why *envy* the exuberance of Pa? If you are a grumpy, headachy, constipated grouser—you know the type—take a dose of *Parton's* to-night. Your stimulated Liver will then pour more Bile—that precious fluid—into your intestinal tract. That will "roll the clouds away" for a start. More Bile *does* that.

Take another dose of Parton's to-morrow night and feel the beginnings of their combined *tonic-aperient* effect. Time will enable you to achieve *Pa's super-fitness*. You *can*. You *will*.

Never before has a *Tonic* been successfully combined with an *Aperient* as in *Parton's*. That is one of the reasons for their popularity. But the *real* reason is the *Results*. The "All-in" *Results*. Ask *any* Parton's user. Parton's are more than "Pills." They definitely set a new-day standard of inner cleanliness and Nerve Strength—resulting in Bodily Super-fitness hitherto almost unbelievable.

Constipation
THAT MADE LIFE A MISERY

Dear Sir,

I would like to express my gratitude for the way Chamberlains Tablets cured me of constipation, sick head-aches and loss of appetite. I was ill for a long time off and on, and though I took many medicines the troubles would always come back. I was a continual misery to myself and all those round me for I found that I could not take part in any of the enjoyments of my friends without feeling ill.

Then one day a friend suggested that I tried 'Chamberlain Tablets' so I sent for a packet and felt better almost immediately. To-day I am the picture of health and thoroughly enjoy life and I tell all my friends about Chamberlains Tablets because I think every one should keep a box handy in case of need

Thanking you,
Yours faithfully,
JOHN TWALA

Cricket At Rand Leases

W. M. XIMIYA 143 NOT OUT

Randfontein Estates C.C. made a poor start in their first match of the season against Rand Leases C.C. on Sunday, November 1. Batting first Estates made 55 runs; D. Ngwana 23 and J. Long 11 were the only batsmen to reach double figures; S. Ntshekisa 8 for 2; S. Ndlwana 2 for 12; C. Mandlana 2 for 6; E. Majola 1 for 27.

S. Voss and W. Ximiya opened for Rand Leases to the bowling of Modimoeng and Mtyali. The two batsmen soon got associated and went all out for the bowling. At 66 Voss was out L.B.W. for 29 runs. S. Matodlana followed, and finding the bowling to his liking he soon rattled up 73 runs in convincing style.

A feature of this match was the century scored by Ximiya. After a shaky start he collared the bowling and when a halt was called he never looked like going out. He was definitely "Making Hay while the sun was shining." His 143 runs were well deserved. Ntshekisa 16 runs and the Rand Leases total at 277 for 2 saw Randfontein Estates crack and give up the game. Rand Leases are therefore winners of this match.

Mangala, and were all out for 15 runs. V.E. C.C. made 60 runs all out under the bowling of J. G. Mafu 15 runs. V.E. C.C. made 60 runs all out under the bowling of J. G. Mafu and B. Gabern. H.S. C.C. in their second innings made 57 runs, and V.E. C.C. made 52 runs thus winning the match by 40 runs.

Orlando Sports

(By Simon Malaza)

Variety in sports activities is a great incentive to participation thereof in this township which has 3 tennis courts, 3 soccer fields and 2 rugby fields. These grounds are well looked after. The soccer fields also become good cricket pitches during the cricket season.

Basket ball posts are very common in school yards. The only unfortunate sport, though its popularity is growing, is golf. It is played under the poorest conditions imaginable in this township. Sympathy has been expressed with a sum of £1 10/-, to improve its conditions. This sum has come all the way from Egypt, from our city sportsman Sgt. Stephen Neala who is member of St. Andrews G.C. and was a member at the B.M.S.C. and of our Boys Club affiliated to the Transvaal Association of Non-European Boys Club. He stated: "I here enclose £1. 10s. renewing my membership from 1941-43. Let what remains to the help of the club." Letters have been received from our sportsmen, but Xmas greetings have been our pride.

On behalf of all sports in Johannesburg I wish to express this city's greetings to those far from home.

It may please many to know that the Original Demonstrator of First Aid classes has opened Thursday classes at "Umtuzele." These commence at 7.30 p.m. Those of the township interested should only be at "Umtuzele" on the above mentioned day and time.

Tvl. L. Tennis Union

Miss Celia's Boys, a group of merciless fellows, played thrilling soccer matches at Rooisloot during the last week-end. The First Elevens played on Saturday morning against Rooisloot and Mosesetjana combined team made their first goal to the anger of Miss Celia's Boys. The backs began to blow, the halves to block, the inners to pass and the outs and the centre to throw into the net.

The game ended with a score of eight goals to one in favour of Miss Celia's Boys.

On the following day in the afternoon the Second Eleven played on the same ground against the Rooisloot Second Eleven.

Miss Celia received a cheer of thanks from the staff of the P.P. Rust Intermediate School for the feats achieved by these young fellows of the school.
