

Sunday God bless you for the business today starting
see nearly all the papers. Today am trying to stay very
sober, and being very carefully, to examine some of
the things I wish explain to you. First the note &
the thing was not on my thought it was supposed
to be but I was so anxious about that day that
an edge I got into the car to leave, I had 200
of it, and I showed it away where you
found it. Do you know that I had absolutely refused
to go there again. But it was to 21, 22, 23, 24, 25, 26, 27,
I had been trying desperately to argue my note with
some without any success, it was well all I said that to call the
death has upon them. I am sure that the case is

latest model putting through 2. As you see, if you compare
it, 40 years its bloody awful. Do definitely want a better

spot at the moment I agreed on such paper
made a man that can hang, but anyway I
left the bulk of note behind, I had nothing of
importance to notice on me when arrested. The

place when they raided, & Gov. sat & Kelly was
outside. I understood the police claim they
hopped through the window of the cabinet.
Den. I father was in the lounge of the house
papers, & only arrived home at about 10 pm, long
the night. Exactly what was in the room or
the house has not been known, except that relative

there. I might since that are of these of sort
very dangerous, but I think that they are on
it at all, they can only be on hand with notes

that is for it down again. I think that
any case against me must be based on
fingerprints or documents that I ever signed
with the house & people in arrangement
it, which does not seem to my lay mind very
true, but the legal angle may disagree. As to a case
that, as I see it, if they want to go on all the July

her, and I hope earlier action. sitting here like this, I would frankly welcome any step which brings me back amongst people, whom I can talk - even a change of any sort. You say you hope Dean hangs on. Of course I can do that I have no doubt. But it is hell, not just the colonics and a whole of tedious, but the Jewish neurotic fears, anxieties and tensions that become work up with only ones own mind for company. I think that while the idea was not rejected, you should not be too hard on him. You can't escape what this is due to you, in which you become not just the rest of but the whole of your universe. You can feel, you can live, even your own food a bowl movements are important, because they affect your life. But nothing you do or say can possibly affect the life of anyone else.

It seems you become the completely non-said, I suppose really anti-social monster. I have been thinking for some time that if I ever get to write articles again, this is one I would do for America - the breeding of egomaniacal monsters. You ask me you right or wrong about the message, frankly, I don't know. The longer I trust my judgement on large things, as I told you, I think you're more likely to be right. However, there's a good chance we are on these things. I had my doubts about it, which is why I said "No idea!" And now, just to make clear - my old hobby horse - that I might have to raise again. But a further thought, why could testify that in 1960, after my first arrest, we saw her together, told her that we both expected arrest that we were not going to make any steps to avoid it, and would she look after kids I raise it has because, if she is

of going to leave SA, will you see that she's effect least till very recently puts these facts down in proper form, in front of me. Why I don't know that it seems to me that this really was a necessary for continuation of these little things, which came to mind as I thought I didn't have some sort of functional blockade of sorts and in that just be enough - maybe. But I don't see different of sorts. I don't think the possibility. I realize that all this escape business state. I don't think makes the chances even slimmer, but they happen. There was a right- normally don't know where to start and so much I right as any me would want to say. Somewhere in your records you would have been for I feel whether you were the right way for me. I have been that it is really only doing a lot of thinking about us, for long, and I now, really, that we about me especially. I think that somewhere in my life have really been the something went wrong. It seems to me that I never really caught up should have become a completely adult if that makes any sense - not benefit I want substances
