## Education

The education we are getting in now days is used as a vehicle of the ideology of Apartheid in South Africa. Through white education the white child learns that he/she will grow to be boss or boss to an inferior black, and through national education the black child is subjected to perpetual mental servitude and made to accept that she/he should grow to obey and be loyal to a white boss or mistress. This is solely meant to uphold uphold the white privileged position - that of the haves, and have blacks accepting their inferior position without challenges.

Now the challenge facing us as youth is choosing between being part of the system and being part of the oppressed masses. Leaving things going unchallenged and allowing the perpetual existence of oppression and exploitation, allowing ourselves to be co-opted in the middle-class and avoid invariably form a buffer between exploiter and the exploited or utilizing all privileges afforded to us youth into skills of consolidating the position of the oppressed.

11

The answer lies in our challenging the evil educational system we are exposed to and active oppression and exploitation to which our people are subjected in all aspects of their lives. This goal of national liberation cannot be achieved by individual and isolated efforts but through united force.

- ① We must first be united as youth
- ② We must as a united youth force unity with the oppressed workers.
- ③ We must be ready and prepared to take our rightful portion in the community.

Unity between the student force youth force and the masses can be achieved by linking up with trade union and our communities and supporting workers struggle by involving ourselves in the High rate Unemployment Insurance Funds and ~~Self~~ Income Tax. And Anti-Tra Camera Permanent Campaign we must ~~be~~ <sup>however</sup> be careful not to dominate our less articulate oppressed but to guide the workers leadership.

11  
We should prepare ourselves into  
occupying our rightful position in  
the community, consciousness of the  
oppressed and identifying with the  
oppressed masses and participating  
in the struggle for national  
liberation even after schooling

In short students and youth, the struggle  
cannot be fought by in isolation  
but as an integral part of the  
ongoing struggle of the Africans in  
South Africa
