The Anti-PC ^{Peace} "Ab 94" will meet with religious, sporting women, youth and other grassroots organizations ^{as well as individuals} to launch a massive campaign against the apartheid constitutional proposals and to call on the community to boycott the elections. We have no doubt that the community will demonstrate their total rejection by a massive boycott of any elections or referendums for the apartheid parliament. We are sure all the oppressed people are united in this objective.

The Anti-PC is already in the process of organising a house to house campaign in a number of areas to boycott any elections. That campaign will now gain momentum and spread to further areas.

We shall make it our duty to inform the community fully of what ^{serious} dangers the constitution holds for us.

- Our country will be set firmly on the road to violent conflict by deepening the ethnic, racial and other divisions and become the bloody battleground of armed conflict. The potential for embroiling all of South Africa and escalating into an international battleground is frightening.
- The apartheid system will be strengthened and those who impose their rule on us today will continue to have all power in their hands.

2
- Our children will be called up to die on the borders fighting a totally unjust war and to keep apartheid alive.

- There will be a growing housing crisis where we would have to continue living in overcrowded and unhealthy conditions in the areas where the new constitution will force us to live.

- Our children will be frustrated and suffer under inferior education and will continue to fail and become cheap labour in the factories, because the new constitution will force segregated schools on us and spend next to nothing on the education of our children while white education will be most lavishly provided for.

- We will continue to die in understaffed and ill equipped hospitals while vast sums of money will be spent on grand hospital schemes for white South Africa.

- We will become junior partners in imposing apartheid on the oppressed people, helping to dump African people in the barren homelands to die of starvation, poverty and disease.

- We shall be used to trick foreign countries into believing that we have a say in running our country.

∴ We shall call on all our community organisations to utilise all their resources to inform the community of these and other dangers. We shall also work side by side with the UDF and its affiliates to ensure the total exposure and rejection of the tricameral parliament. Of course, we shall be harassed, ~~by~~ as we are being harassed now by the Security Police. But we shall spare no effort to expose Hendrickse, Reidani, Poovalingam, Curry, Reddy and all those who are going into the dummy apartheid parliament by a massive boycott campaign.
