

GO HOME GREEDY AUSTRALIANS !

THE GREAT MAJORITY OF SOUTH AFRICANS REJECT THE PRESENT AUSTRALIAN CRICKET TOUR AND CALL ON THEM TO GO BACK TO AUSTRALIA.

On behalf of this overwhelming majority, the

SOUTH AFRICAN CRICKET BOARD

calls on the public not to support these "multi-national" matches for the following reasons.

- Cricket, that is supported by the Regime continues to remain segregated. Primary Schools cricket, High Schools' cricket, University cricket and even cricket at most provincial levels remain racial in character.
- It is not possible for non racial cricket to make the kind of progress white cricket is making because of the hopelessly inadequate facilities available to black cricket at both junior and adult level.
- Mass unemployment and starvation among blacks do not allow for equal opportunities for all those who would like to participate in the sport.
- While the countrys blacks starve, the Australians are grabbing R8 m of SA'S money — money which could help to ease the serious problems and untold misery caused by starvation.
- The R8 m that will be paid to 15 well nourished but greedy cricketers can . . .

— enough to save a quarter million from dying.

- We have to continue to suffer the humiliation of being harassed, intimidated, jailed and tortured by a rotten system which is put into power by those very people who are promoting this Australian visit — and it seems that there are some who are still willing to watch these so called test matches.
- We need to maintain our pride, our dignity and our respect. Let us join the millions of South Africans opposed to this tour by staying away.
