

Taxation on the grounds that Africans are least able to pay such a tax and because of its special nature it is inequitable

We do not lose sight of the fact that it maybe said that we shortsighted in our ~~request~~ ^{request} ~~by killing~~ the goose that lays the golden egg, in that this special taxation is earmarked for Native Education and Social welfare. Thus we admit ^{we remember} ~~some~~ plausible. It must however that South Africa has poor Whites, poor Coloureds, and poor Indians for whom she is spending large sums for free elementary school education wellpaid teachers, beautiful buildings, funds for feeding school children and so. We congratulate the government for this. This is as it should be. We therefore, most humbly and respectfully request that the government render a similar service for the African the poorest of the poor with a special tax imposed upon him or expecting him to receive only services that he is able to pay for from his poverty

We request for a service ~~not~~ according to the means but according the needs of the African people

We hope our representation will receive your favourable consideration and bring about relief to a depressed section of our country.
