Dear Mrs. Scott,

Thank you for your letter of the 22nd February.

As it is now too late for student Mr. J.R. van der Merwe to enter the First Year of Study, it has been decided not to take any further action in assisting him to register in 1963.

Thank you for your assistance in this matter.

Yours sincerely,

(C. McN. Cochran)

Dear Dr. Cochran,

The Director asked me to make enquiries about Mr. J.R. van der Merwe, as requested in your letter of 8 February, but we can find no trace of him. No one of that name is known at 11 Welman Avenue, Newclare, nor has the local minister ever heard of the family.

Would it be possible to have further information, such as the schools he attended, church affiliation etc? Enquiries have been made widely and can go no further without fresh information.

With kind regards.

Yours sincerely,

(Mrs.) M. Scott,
ADMINISTRATIVE ASSISTANT.

8th February, 1963

The Director,
S.A. Institute of Race Relations,
P.O. Box 97,
JOHANNESBURG,
Transvaal.

Dear Sir,

We have a preliminary year coloured student, Mr. J.R. Van Der Merwe who lives at 11 Welman Avenue, Newclare, Johannesburg, whom we are wishing to help if it is possible to do so.

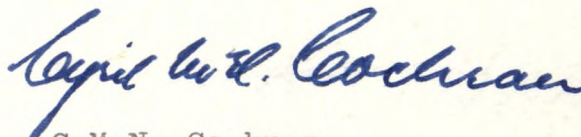

Mr. Van Der Merwe has completed his preliminary year of study in the Faculty of Medicine and has been promoted to the First Year. Owing to the fact that he is in debt to the University for tuition and residence fees to the extent of R243, he has been told that he cannot attend the first year of study until this debt has been settled. It is possible that we may find some benefactor who is prepared to assist him financially, but it is essential that he must have some resources upon which he can rely if he is to take the 7 year University course. Would it be asking too much of you for you to give us a report on Mr. Van Der Merwe's circumstances and background, to give us some idea as to what length we must go to assist him. One thing is certain, he is not a brilliant student, and it is quite possible that somewhere along the line he may fail and it may take him longer than 7 years to complete his course. Any information which you can give us which may help us to make a decision concerning Mr. Van Der Merwe will be very much appreciated.

8th February, 1963

There is an element of urgency about this matter as the 2nd. year course starts at the end of this month and we would like to be in a position to make an early decision whether or not to register Mr. Van Der Merwe.

Yours faithfully,

C. McN. Cochran

Dear Glyn,

I have been trying to get you on the telephone for one or two days but you seem to be very, very engaged. I was not a matter of importance, but I did promise Dr. Munchi to make the inquiry. He has a daughter, Miss Fazela Munchi, who is anxious to do medicine. Apparently she has acquired a Ministerial permit but I understand that she has been rejected by the University already.

Dr. Munchi heard that two other Indians, Patel and Bhult, had withdrawn from the medical course and he was wondering whether his daughter, Miss Munchi, could fill one of these places.

I promised I would make inquiries but I did not hold out any hope. All good wishes.

Yours sincerely,

Quintin Whyte
Director.

Dear Mr. Mamabolo,

Thank you for your letter of the 20th March, 1963, in reply to which I wired you this morning.

I regret that it is quite impossible for the Institute to arrange a meeting such as you suggest but, as instructed in my letter of the 12th March, you write personally to the Institute of Medical Research, Johannesburg and arrange a meeting with them. If they are interested in your discoveries, rest assured that they will get in touch with you.

Yours sincerely,

Quintin Whyte
Director.

Sir:

I humbly beg to acknowledge receipt of your letter of the 15th Instant. I very much welcome your suggestion.

I shall be kind enough and arrange that meeting with the Director of Medical Research for me. I would very much like to address that group of medical men on the Discoveries I have made. I will leave Tientsin on Friday the 29th March and straight to your office after the arrival of the Tientsin train. You can then take me to that hospital and introduce me to them.

I will be grateful to you for this assistance, Sir.

Yours obediently,

Dear Mr. Mamabolo,

I thank you for your letter of March 4th, 1963.

I suggest that you send a letter to the Institute of Medical Research, Johannesburg and inform them of any discoveries that you may have made.

Yours sincerely,

Quintin Whyte
Director.

Johannesburg.

Dear Quinton,

At the time that I received your letter of 21st March, 1963, I tried to get you on the telephone but you seemed to be equally engaged.

I would have said that there was hardly any chance for Miss Munchi to be admitted to medical studies. The competition for our non-White quota is extremely severe (more than 80 applicants for 8 places) and only really distinguished applicants have any chance at all. I do not remember seeing Miss Munchi's name on the reserve list but in any case I doubt whether a student would be admitted as late as the fourth week in March.

With best wishes,

Yours sincerely,

I. Glyn Thomas,
Vice-Principal.
