Today is the 16th day of October, 1983. A historic day in our struggle, that is that it marks the birth & launching of Mankweng youth congress. It is an important aspect in our Revolutionary struggle in the sense that our youth have realized that it is only when its organized that it can play an important role in our struggle against Racist minority regime in our country.

The South African Youth proved in 1976 that it prepared carry out the aspiration of the oppressed people of South. It proved itself to be a generation which was prepared & det to see freedom in its life time. But first before this youth can realize itself as the dynamo of the C.A Rev it must satisfy a few basic expectations amongst itself.

The Youth must realise the important of Unity. It must know that the road towards the humanisation of the oppressed can only come when they are united. It must realise that fighting amongst themselves over trivialities would be of help to them. They must as a committed Youth avoid engaging ourselves ^{themselves} in horizontal struggles. Ours is a vertical struggle — to fight against the globalising forces as a united force. We must avoid promoting division amongst ourselves for Bhatia, & Preet Kaur. Those who promote division amongst us are not our leaders nor our compatriots but they are the stumbling block towards the achievement of our goals. One important fact concerning unity is that it is not based on the sameness or the same approach towards a common problem. Let us unite despite our diff approaches, as

long as our unity is based
and trust & sincerity, we
will attain our goal of
bringing a just society
in S.A. struggling Block by
word & deed.
If we can succeed to forge
unity amongst ourselves
then we must those at school,
University, the employed
& the unemployed then
we will be in a position
move on to educate
& prepare the masses for
the revolution.

~~Educational role of the Youth~~
It is important that the Youth
as the dynamo of our Rev
must involve itself in a conscientizing
programme that involving
themselves a genuinely
liberating education. This
awakening of critical consciousness
will ultimately be the way to
the expression of social
discontents. Precisely
because these discontents
are real components of
an oppressive society situation,
if this education will
free the oppressed from
free of freedom. This
education will prepare the
people for Rev- awareness
